Previously

Kanon is a young Mongolian-born Japanese girl with a gift for the violin. After the tragic death of her mother she travels to Japan with the composer Kawahara Tendou, searching for the father who left his family behind in order to become a professional musician.

Tendou, who looked after Kanon in Japan, soon leaves for America due to the provocation of Mikami Gen. Left alone, Kanon has no choice but to enroll in a music school where Mikami is the director.

However, because Mikami gives special treatment to Kanon, she becomes isolated from the other students. This is the situation in which Kanon is about to meet a musician who could possibly be her long-lost father.

◀ Mikami Gen / Orchestra conductor, composer and music school director. Extremely popular due to his good looks and overwhelming talent.
